

Lauren Inacio

Product Designer | Enterprise AI | Complex B2B Products

New York Metro Area | (914) 844-5633 | laureninacio@gmail.com | linkedin.com/in/laureninacio | laureninacio.design

Dual EU/US Citizen | EU Work Authorization, No Sponsorship Required | Relocating to the Netherlands, Germany, or Sweden

PROFESSIONAL SUMMARY

Product Designer with 7+ years of experience designing complex B2B and enterprise software across AI, developer tooling, application analysis, and workflow automation at IBM. Translates ambiguous technical problems, complex data, and user research into intuitive product experiences. Experienced in end-to-end product design, interaction design, user research, design systems, and cross-functional collaboration across globally distributed teams. Dual EU/US citizen, fully authorized to work in the European Union and United States with no sponsorship required; open to relocation to the Netherlands, Germany, or Sweden.

CORE SKILLS

Design: UX Design, UI Design, Interaction Design, Information Architecture, Wireframing, Prototyping, Design Systems, Data Visualization, Accessibility (WCAG)

Research & Strategy: User Research, User Interviews, Usability Testing, Persona Development, Research Synthesis, Workflow Analysis, Design Thinking, Workshop Facilitation

AI & Enterprise: Enterprise AI, Generative AI, Agentic AI, Conversational AI, Complex B2B Software, Enterprise SaaS, Developer Experience (DevEx), Application Analysis, Workflow Automation

Tools: Figma, FigJam, Figma Make, Mural, Miro, GitHub, Box, Box AI, Microsoft Copilot, Claude Code, IBM Bob

Collaboration & Technical: Cross-Functional Collaboration, Engineering Collaboration, Agile, Mentoring, Data Analysis, SQL, HTML, CSS

PROFESSIONAL EXPERIENCE

Product Designer, IBM Bob for Z (Application Analysis) | IBM

Jul 2026 - Present

Poughkeepsie, NY (Hybrid)

- Expanded design ownership into Application Analysis, defining Application Complexity Analysis and Data Visualization experiences for Architect and Experience Developer personas.
- Design workflows that surface application- and program-level complexity through tables, heatmaps, severity and rating indicators, and drill-down visualizations; partner with Engineering to clarify complexity-score availability, backend/API dependencies, and discrepancies between cyclomatic-complexity reporting and Bob.
- Collaborate with globally distributed Design, Product, and Engineering partners across the U.S., India, and Romania to align user needs, technical feasibility, and product direction during discovery and design definition.
- Mentor 4 early-career designers (2 design interns and 2 new-hire designers) through recurring coaching, design feedback, product guidance, and design-process support.
- Contribute reusable UI patterns to the shared Bob IDE Design Library, supporting consistency across Bob experiences.
- Submitted a research-driven Business System Analyst persona to the IBM Persona Library, synthesizing validation interviews and research findings into a reusable organizational research asset.

Product Designer, watsonx Code Assistant for Z (Code Explanation) | IBM

Feb 2024 - Jul 2026

San Francisco, CA (Hybrid)

- Led end-to-end product design for Code Explanation, evolving the experience from a panel-based interaction into a conversational AI workflow for enterprise mainframe developers.
- Designed 10+ AI-powered UX capabilities and interaction patterns, the majority shipped, spanning chat and session management, long-running generation, inline and block comments, code insertion and undo, system feedback, prompt customization, language handling, and large-program summarization.
- Translated enterprise-developer research into product decisions around Assembler programs, macros, explanation trust, comment preferences, and code-analysis workflows.
- Partnered with Product, Engineering, Research, and Content Design to align user needs, technical feasibility, and implementation direction across complex AI-assisted development experiences.

Product Designer, z/OS Cloud Broker | IBM

Jun 2020 - Jan 2024

Poughkeepsie, NY (Remote)

- Led UX design and redesign work for z/OS Cloud Broker, creating user flows, interaction designs, prototypes, reusable patterns, and UX documentation in partnership with Product and Engineering.

- Conducted and applied discovery research, usability feedback, workflow analysis, and design validation to inform product decisions.
- Contributed to work recognized with the 2022 IBM Stratus Award (Cloud Integrator) and the IBM Client & Partner Success Award.

Junior Product Designer, IBM Innovation Team | IBM

May 2019 - Jun 2020

New York, NY (On-Site)

- Designed Agent Companion, an AI assistant prototype for State Farm during a Design Thinking engagement, projected to improve customer satisfaction by ~90% and agent satisfaction by ~80% and to save an estimated \$1.78M annually by reducing follow-up calls.
- Conducted user research and designed an MVP Education Portal for enterprise client Zones, recognized by an IBM National Channels Sales Executive as one of the strongest deliverables he had seen in 40+ years at IBM.
- Designed a remote-learning website for IBM executive leadership and the COVID-19 Emergency Response Task Force, supporting continuity in the education system.
- Co-mentored 22 interns across client-facing design initiatives, rapid prototyping, and a CIO Hackathon during the 2019 GTS summer program.
- Facilitated BlueHack strategy, whiteboarding, and collaborative ideation sessions for State Farm, Anixter, and Sentara.

Application Developer | Experis / ManpowerGroup (contracted to IBM)

Apr 2018 - Apr 2019

IBM Chief Information Office | Armonk, NY (On-Site)

- Built and maintained ETL pipelines aggregating internal data sources into datasets used by IBM CIO reporting for management and audit.
- Served as team focal point for testing the Enterprise Application Library, supporting 45+ global internal users and producing user training materials.

EDUCATION

A.A.S., Visual Arts | SUNY Westchester Community College

Sep 2015

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Anthropic Academy: Claude Code 101 - 2026
- Figma Workflow Lab: Rapid Design Iteration with Figma AI Agent and Figma Make - 2026
- IBM: AI for Product Teams - Generative AI Fundamentals - 2024
- IBM Enterprise Design Thinking Coach - 2024
- IBM Blue Core Coach - 2023
- IBM Patterns Design Program - 2021
- Web Development Immersive Certificate (600+ hours, full-stack) - General Assembly - Dec 2017
- Interactive Design / User Experience (UX) Certificate - SUNY Westchester Community College - Jul 2017
- Coursework in Computer Art, Visual Effects & Computer Animation - School of Visual Arts - May 2017
- IBM Advancing Accessibility
- IBM Security and Privacy by Design Foundations
- IBM Agile Explorer

AWARDS & RECOGNITION

- IBM Stratus Award, Cloud Integrator (z/OS Cloud Broker) - 2022 (team award)
- IBM Client & Partner Success Award - 2022 (team award)
- IBM Gold Champion - 2020, 2021 (highest IBM learning achievement, 200+ hours/year; top ~6% of IBMers)
- IBM Systems Impact Quarterly Award - Q2 2020
- IBM Z Design Peer Recognition Award - Q2 2020
